At the request of the authors, the article titled "Effect of the solid retention time in the obtention of polyhydroxyalkanoates" [version 1; peer review: awaiting peer review]. *F1000Research* 2021, **10**:864 (<https://doi.org/10.12688/f1000research.28852.1>) has been retracted from F1000Research.

Since publication of the article, the corresponding author has notified the Editorial team that this work was originally performed at University of A Coruña with the involvement of María C. Veiga and Christian Kennes, who were not notified regarding the submission of this manuscript or listed as authors. After discussion with all parties, including contact with the corresponding author's institution, it was agreed that the article would be retracted in order to correct the academic record. As the article contains content which potentially should not have been made publicly available the content of the article has been removed. The authors apologise for this honest error.

Keywords

Acidogenic fermentation, volatile fatty acids, polyhydroxyalkanoate, solids retention time

Not Peer Reviewed

This article is an Retraction and has not been subject to external peer review.

Any comments on the article can be found at the end of the article.
