Retraction

At the request of the authors, the article titled 'A low-cost in-house HIV integrase strand transfer inhibitor drug resistance test for resource-limited settings' ([version 1; peer review: awaiting peer review]. F1000Research 2021, 10:260, <https://doi.org/10.12688/f1000research.28404.1>) has been retracted from F1000Research.

Since publication, it has come to the attention of the authors that the primers described in Table 1 were incorrect. As this article contains information which should not be publicly available the content of the article has been removed. The authors apologise for this honest error, and intend to republish the article with the correct primer information. Unfortunately, Dr Graeme B. Jacobs has passed away since publication of version 1 of this article.

The benefits of publishing with F1000Research:

- Your article is published within days, with no editorial bias
- You can publish traditional articles, null/negative results, case reports, data notes and more
- The peer review process is transparent and collaborative
- Your article is indexed in PubMed after passing peer review
- Dedicated customer support at every stage
